

Woodbridge Parkway Maintenance Association

Models/Plans/Units

There are 4 models/Plans/Units within our community.

Ashford (A) – 1 story unit – double-door front door is on the side of the unit –
ALWAYS AN END UNIT

Branston (B) – 2 story unit with straight walkway to single front door (may have 1-3 steps to front door) *ALWAYS A MIDDLE UNIT*

Claridge (C) – 2 story unit with straight walkway to front porch with a double-front door to the right or left of the porch. *ALWAYS A MIDDLE UNIT*
This unit has builder installed gutters on the 2nd floor

Danville (D) – 2 story unit with straight walkway to porch and double-door front door
ALWAYS AN END UNIT

The buildings within the Woodbridge Parkway Maintenance Association are comprised of four (4) floor plans as listed above. The B and C units are always in the middle and the A and D units are always on the end. In all buildings of more than 2 units there will be one (1) A unit and one (1) D unit on the ends and would have either one or both of the B or C units in the middle. If there are only 2 units in a building they will both be D units.

Below is a typical outline of the units on the maps of our three (3) communities.
